DIGITAL SKILLS

Languages and Frameworks

PHP | Laravel | MySQL | Javascript | Vue | Laravel Livewire | HTML | CSS | Wordpress | TailwindCSS

Testing,Tools, Concepts And Others

Cypress (end-to-end testing) | PHP Unit | Laravel Nova | Filament PHP | Linux | BitBucket | Git | Github | OOP | Web API | Bootstrap | Adobe Photoshop | JSON | REST API | REST | Postman | MVC

AI Tools and Tech

Python | Windsurf | Cursor | CrewAi | Ollama | Open Ai | LM Studio

WORK EXPERIENCE

07/05/2021 – CURRENT Remote , Czechia

BACKEND ENGINEER | AI & AUTOMATION ENTHUSIAST FULLSTRIPE TECHNOLOGIES S.R.O.

- Developed scalable web applications using PHP, Laravel, and Vue.js, ensuring high performance and maintainability.
- Designed and optimized database architectures, improving query response times by 30%.
- Implemented secure authentication systems to enhance user privacy and application security.
- Integrated payment gateways and real-time chat systems, improving user engagement and transaction efficiency.
- Led code refactoring efforts, reducing bugs by 40% and improving deployment stability with PHPUnit and Cypress automated testing.
- Actively participated in code reviews, system design discussions, and performance optimizations to maintain a high-quality codebase.

AI & Automation Exploration

- Alongside my work in backend development, I am actively learning and experimenting with AI engineering, focusing on agentic workflows and multi-agent systems using tools like CrewAI and Ollama. I explore LLM-driven automation, developing intelligent agents that enhance debugging, API automation, and system performance. My research includes predictive analytics, AI-powered query optimization, and AI-assisted software development. Additionally, I am exploring ways to incorporate AI into programming, leveraging AI-powered code generation, autonomous debugging, and optimization techniques to improve development workflows. By following industry trends and working on hands-on projects, I am building a strong foundation in AI model integration, prompt engineering, and large-scale automation, preparing for future AI-driven development roles.

07/2019 – 11/2020 Sri Lanka

JUNIOR WORDPRESS AND PHP WEB DEVELOPER REMOTE - OFFICE ONE

- Collaborate with web designers and clients to turn design mockups into functional WordPress websites and web applications
- Write clean, well-documented code using HTML, CSS, JavaScript, and PHP
- Troubleshoot and fix issues that arise on WordPress websites and web applications
- Write and maintain documentation for web projects
- Stay up-to-date with the latest web development trends and technologies, with a focus on WordPress and PHP
- Write custom plugins and functions to extend the functionality of WordPress websites
- Integrate websites with external APIs and data sources

- Install, configure and monitor routers, switches, access points and wireless devices.
- Lan, wan, wireless build, troubleshoot and root cause analysis.
- Manage active directory groups, user accounts, permissions and storage allocations.
- Perform IT security administration (e.g. firewall, anti-virus, windows, database, patching).
- Virtual operating system installation using Hyper x and VMware.
- Performing timely system backup and restores.
- Recommend, schedule, and perform software and hardware improvements.

Provided level 3 Technical Support, responsible for all incoming tickets, onsite and remote support, Active Directory and User Administration, ensuring fully documented fast and reliable technical service provided.

Providing System and Network administration for all aspects of IT and communications throughout customer destinations, handling onsite/remote Technical Support, Server installation and administration, Network designing and implementation, Access and Security System Administration.

● **EDUCATION AND TRAINING**

● **LANGUAGE SKILLS**

Mother tongue(s): **ENGLISH | SINHALA**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
TAMIL	C2	B1	C2	C2	B1
HINDI	C2			C2	
JAPANESE	B1			B1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
